ChinaPlus is the best! I organized a group of 41 friends for a private tour to China and to view the total solar eclipse of August, 2009. I contacted several tour companies and ChinaPlus was the only one willing to adjust our itinerary so that we could be in our chosen location at the time of the eclipse. We had two buses in order to keep the groups smaller, but all of us were together at meals and on the Yangtze Cruise.

Chris and Ping Lee went out of their way to make sure that every detail was in place. Having organized many trips in the past, I can really appreciate the huge amount of work it took to accommodate our group. There was virtually no waiting around when we reached each new destination. Our new room keys were handed to us and our luggage was waiting in our rooms.

The hotels were wonderful. The guides in each city were top notch. All spoke excellent English and they were very knowledgeable about their area and its history. The buses were in great condition with good drivers. The food was good and served quickly.

The Lee's extensive experience and Chinese contacts made all the difference. I wouldn't consider any other company for a trip to China.

Thanks for a spectacular trip!
